

Debt-free? Your Manulife One is an account for life.

The majority of Manulife One customers choose to keep their account open even after their debt is paid off. If *you're* close to becoming debt-free, congratulations! Here are three things you need to know:

One. When your debt is gone, you can continue using your account for everyday banking. Most chequing accounts pay no interest. But your Manulife One account pays interest on every dollar.

Two. You'll still have access to your line of credit. Which means you'll always be prepared for things like a temporary job loss or an unexpected car repair. Or, you can use it to pay for things like the gourmet kitchen you've always wanted, a dream vacation, or even helping out the kids. When life happens, you'll be ready.

Three. You can bank for free. When you maintain a positive balance of five thousand dollars or more, we'll waive the monthly account fee.

Manulife One – think of it as your account for life.
